Nella produzione di questa sofisticata tipologia di prodotto, nota tecnicamente come "grafica ad incastro", garantiamo una continuità grafica tra i diversi pezzi con una tolleranza di disallineamento fino ad un massimo di ± 1,5 mm. Per minimizzare l'eventuale scostamento grafico tra i diversi pezzi, è consigliata una fuga minima di 2 mm, come previsto dalla normativa vigente UNI.

In the production of this sophisticated type of product, technically known as 'interlocking graphics', we guarantee graphic continuity among the different pieces with an alignment tolerance of up to a maximum of ± 1.5 mm. In order to minimize any potential graphic deviation between the different pieces, a minimum joint of 2 mm is recommended, as required by the current UNI EN regulations.
